

BIRD•B•GONE
HAWK®

Installation Options

BEST RESULTS

- Place the Hawk out before birds are a problem
- Put the Hawk in a spot where the birds will see it
- For continued effectiveness, move the Hawk around every couple of days

INSTALLATION OPTIONS

- Drive a pole firmly into the ground and mount the Hawk on top to protect your garden and yard from pest birds
- Hang the Hawk in trees using string through the hanging hole at top of hawk
- Fill Hawk with sand or gravel for weight to stabilize, glue in place
